Profile Summary

Computer Science Engineering student with hands-on experience in React.js, Python, and MySQL. Skilled in designing and developing responsive, user-friendly web applications, implementing efficient database solutions, and optimizing application performance. Strong problem-solving abilities with a proven ability to collaborate in team-oriented environments.

Experience

Trainee Developer (Remote) – Rezoomex

Aug 2025 – Present

- Recently onboarded as a Trainee Developer to learn and assist in ongoing development tasks.
- Observing and gradually participating in real-world software development processes.
- Collaborating with the team on AI-based recruitment platform features and improvements.

Projects

SkillSwap – Skill Sharing & Learning Platform Website

Technologies: React.js, Tailwind CSS, Firebase

- Developed a responsive web application enabling users to share, teach, and learn skills within an interactive community.
- Designed intuitive user flows to enhance collaboration, knowledge exchange, and engagement.
- Ensured cross-device compatibility and optimized performance for a seamless user experience.

CareerXpert AI – Get Ready for Your Dream Job GitHub

Technologies: React.js, Tailwind CSS, Django REST Framework, PostgreSQL, Gemini API

Role: Frontend Developer

- Designed and developed a real-time interview preparation and mock interview web application.
- Integrated features like resume analysis, AI-powered resume generation, interactive quizzes, and real-time conversation practice.
- Added advanced features including AI Group Discussion and AI Debate modules.

School Management System

Technologies: React.js, JavaScript, Firebase

Role: Frontend Developer

- Developed a responsive and user-friendly frontend for managing student and teacher records.
- Created interactive dashboards for admins and teachers to view, add, and edit student information efficiently.
- Integrated Firebase for real-time data retrieval and display, ensuring instant updates across the application.
- Designed reusable UI components such as tables, forms, and modals to maintain consistent styling and improve maintainability.

Agricultural Products Marketplace

Technologies: React.js, Tailwind CSS

Role: Frontend Developer

- Developed a fully responsive and visually appealing frontend for a marketplace connecting farmers and agro-industries.
- Implemented dynamic product listing pages with category-based filters, search functionality, and sorting options for a smooth browsing experience.
- Designed intuitive UI components for product cards, navigation menus, and interactive forms to enhance usability.
- Focused on improving user engagement with clear layouts, consistent styling, and interactive visual feedback.

Education

B.Tech. in Computer Science and Engineering – SKN Sinhgad COE, Pandharpur
2022 – 2026

CGPA: 9.56/10

Higher Secondary Certificate (12th) – SMB Mahavidyalaya, Karad
2021 – 2022
64.5%

Secondary School Certificate (10th) – Mahatma Gandhi Vidyalaya, Umbraj
2019 – 2020
92.40%

Skills

- **Programming:** Python, C
- **Web Development:** React.js, Tailwind CSS, HTML5, CSS3, JavaScript
- **Databases:** MySQL
- **Soft Skills:** Communication, Collaboration, Leadership, Critical Thinking, Adaptability
- **Tools:** Git, GitHub, VS Code, Postman, Firebase

Achievements

- Runner-Up in SKNSCOE Hackathon 2024
- Runner-Up in SKNSCOE Hackathon 2025

Certifications

- MERN Stack Web Development – Preplnsta

Co-Curricular Activities

- Participated in multiple state-level hackathons
- Competed in internal coding competitions

Languages

English, Hindi, Marathi

Hobbies

Exploring new technologies, Travelling
